JANNAH

MODERN MEDITERRANEAN · SESEH, BALI

A restaurant built around an 11-metre baobab, cooking over open fire, a few minutes from Pererenan and Canggu. Open daily since July 2026.

ABOUT

JANNAH MEANS PARADISE. OURS IS A GARDEN IN THE HEART OF THE MEDITERRANEAN.

Jannah is a modern Mediterranean restaurant on Jalan Pantai Seseh in Bali, cooking over open fire with Middle Eastern and North African influences.

At the centre stands an 11-metre baobab, the tree of life, rising through the open roof. The building was inspired by the haciendas of Tulum and the riads of Morocco: tall terracotta walls and arched windows, a fortress built around a garden.

Jannah was created by owner, co-designer and general manager Bilel Khanatou, a Frenchman of Algerian and Moroccan heritage. The kitchen pairs rustic Mediterranean simplicity with bold, soulful flavour: wood-fired breads and dips, small plates, wagyu, whole fish and plenty of vegetable dishes.
